
TOWN & COUNTRY LUXURY FIREPLACES

ARCHITECTURAL SERIES

IGNITE YOUR DESIGN

Discover the Architectural Series from Town & Country: luxury fireplaces that enhance your style

The Architectural Series invites you to ignite moments to remember: lit by a perfect flame, enhanced with LED lighting, dancing on a bed of tumbled diamond glass, with as much – or as little – intensity as you want.

Corner Right - 5' Viewing, 16" Tall Glass - Black Enamelled Panels

Single Sided - 6' Viewing, 16" Tall Glass - Black Enamelled Panels

Embrace the flame

Town & Country Luxury Fireplaces let you incorporate a continuous flame into your design. Smart features include safe-touch glass, available in three heights, and a touchscreen panel to control flame, light, and colour. Quality craftsmanship that enhances your style.

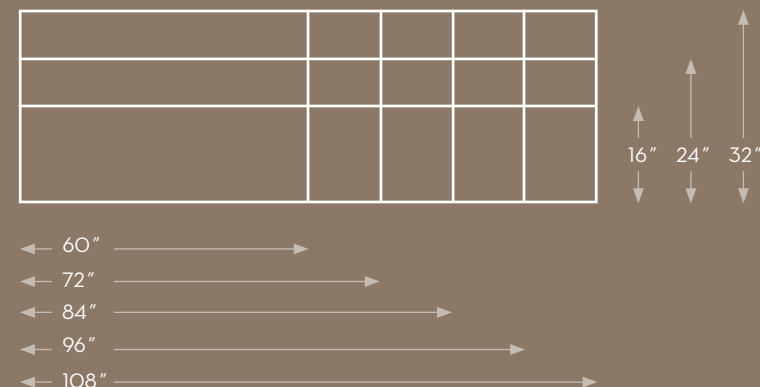

Flexibility without a premium

The Architectural Series fireplaces are designed to fit your imagination. Zero-clearance installations*, load-bearing designs*, and a custom fire-box airflow system so you can complete the look with artwork or a big screen TV, right above the fireplace.

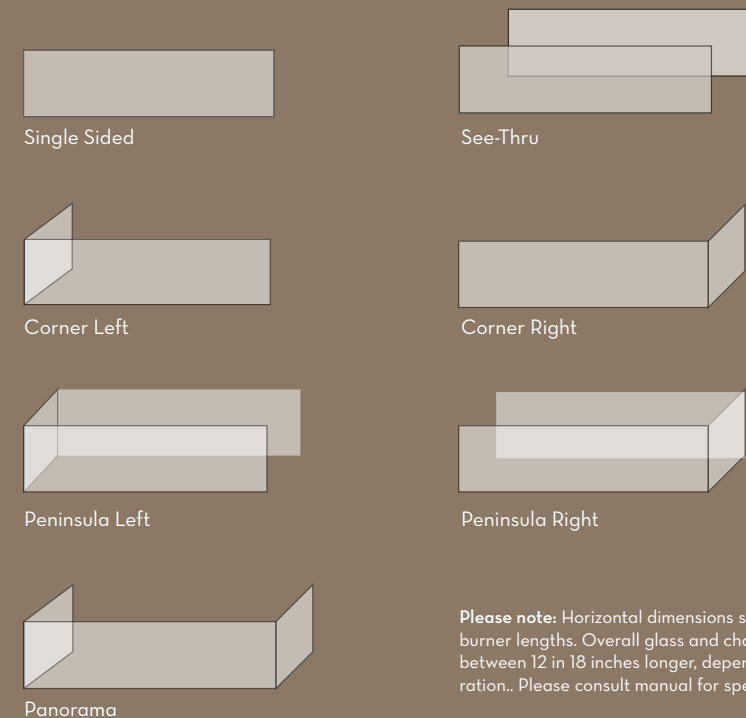

With seven layouts, three glass heights, and glass width that run 5' to 9', you can add luxury into virtually any design.

*see manuals for details

GLASS SIZES

CONFIGURATIONS

Please note: Horizontal dimensions shown are burner lengths. Overall glass and chassis sizes will be between 12 in 18 inches longer, depending on configuration.. Please consult manual for specific dimensions.

Single Sided - 7' Viewing, 16" Tall Glass - Titanium Enamelled Panels

Choose the look that fits your vision

FIREBOX PANELS

PANELLED BLACK
PORCELAIN

PANELLED TITANIUM
PORCELAIN

SEAMLESS BLACK
GLASS

Configure your fireplace with a backdrop of porcelain panels, Enamelled in our factory in North America. Available in two colours: Lustrous Black or Matte Titanium. For a seamless look, choose the one-piece, continuous reflective back glass that draws focus to the fire.

BURNER MEDIA

DIAMOND GLASS

LOGSET

TRANQUILITY ROCK

METROPOLITAN ROCK

A bed of diamond, translucent glass, provide a luxurious look with or without the flame and create a canvas for your burner media. Customize the look of your fireplace with a driftwood logset or a variety of different rocks style to perfectly match your decor.

BLUE

GREEN

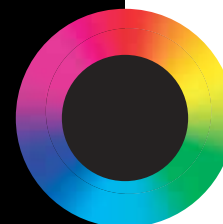

GOLD

PINK

PURPLE

WHITE

Light bright

Choose any colour on the spectrum with the under-burner LED lighting. Our innovative design provides consistent lighting whatever hue suits your mood, with dimmable controls you can choose the colour's intensity for your preferred ambiance.

Single Sided - 8' Viewing, 16" Tall Glass - Seamless Black Glass

Beyond smart

The Architectural Series fireplaces seamlessly integrate with your home automation system. Flame control and variable lighting - including light intensity, hold colour, or looping - are selected by the optional touch-screen control and can be locked out for a commercial environment.

Single Sided - 5' Viewing, 24" Tall Glass - Seamless Black Glass

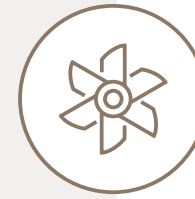

Corner Left - 6' Viewing, 16" Tall Glass - Titanium Enamelled Panels

Smart

Exclusive digital control automatically regulates venting for optimal performance and safety.

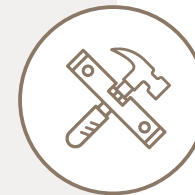

Flexible

Innovative power vent system provides flexible options to locate – or hide – terminations in architecturally sensitive areas

Safe

Continuous temperature monitoring system adjusts air flow to maintain safe glass temperatures

Construction Ready

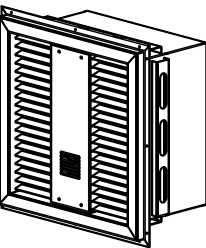

Offers structural support up to 2000lbs with no visible supports*

Designed for professionals

Architects, designers, and builders love our venting systems that accommodate every application. Powered direct venting, flexible terminals, and a flush termination system allow venting through exterior walls or the roof, in houses or condos. This systems allow for 150' of run and up to six 90° elbows. Venting options include horizontal flush mount, horizontal surface mount and vertical surface mount.

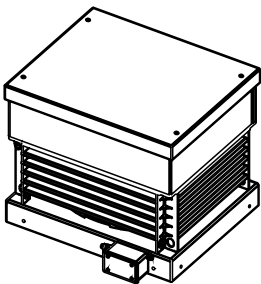

SMART SENSE POWER VENTING

Flush Mount Horizontal Power Vent

Flush-mount power vents are paintable and preserve the beauty of the home's exterior.

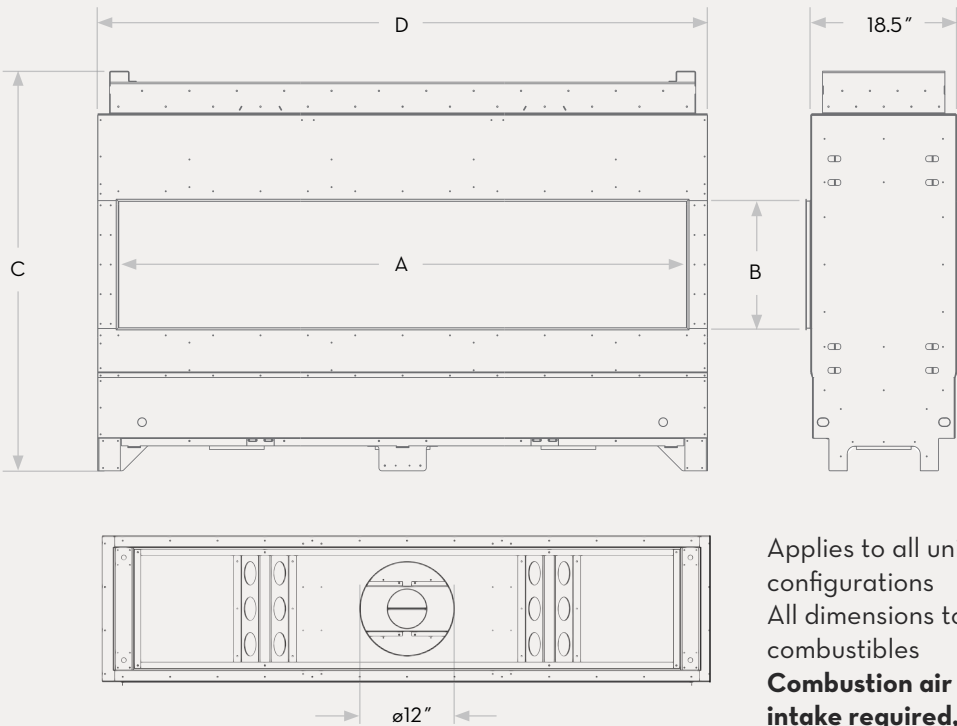

Surface Mount Horizontal or Vertical Power Vent
